

Residential & Multi-Family Electrical Services

LICENSED & EXPERIENCED 02 ELECTRICIANS

Electric car charging stations, panel upgrades, rewiring, lighting, and so much more.

Residential & Multi-Family Electrical Services

We offer comprehensive residential home electrical services, from complex generator work to exterior lighting installations. Our licensed, experienced electricians cover surge protectors, GFCI outlets, electrical upgrades, circuit breaker replacements, and so much more.

WHAT WE COVER

- ▶ **ELECTRICAL TROUBLESHOOTING - \$299 | On Sale \$209**
Our Certified O2 Electrician's will arrive at your home to evaluate and review your electrical needs for \$209.00*. Any additional time is communicated for an hourly rate.
 - ▶ **ELECTRIC CAR CHARGING STATION INSTALLATION**
Professional installation of your EV charger up to 50Amps plug-in/60 Amps Direct Wire.
 - ▶ **PANEL UPGRADES/REWIRING**
Upgrade or rewire your existing panel to support additional electrical equipment or add more voltage to your home for specific needs.
 - ▶ **SMOKE DETECTOR REPLACEMENT/UPGRADES**
Battery replacement in your existing home smoke detector, or upgrade existing smoke detectors. Up to an 18-foot ceiling height. We test and ensure proper operation.
 - ▶ **RECEPTACLE or CIRCUIT ADDITIONS/REPLACEMENTS**
Our electrical team will come to your home and provide routing up to 25ft from a dedicated circuit and/or replace one existing 125v 15- or 20-
 - ▶ **CEILING LIGHT and/or FAN REPLACEMENT**
Replace or upgrade chandeliers, recessed/can lighting, LEDs, ceiling fans, and so much more. We hardwire your lighting project up to a ceiling height of 18 feet and ensure it's up to code.
 - ▶ **WALL HEATER/THERMOSTAT UPGRADE or REPLACEMENT**
Replace existing wall heaters, baseboard, in-wall heater, hydronic wall heater and units that have a direct or manufacturer approved replacement up to 2000 watts. We also can replace existing line voltage for mechanical thermostats.
 - ▶ **GENERATOR TRANSFER SWITCH INSTALLATION**
Installation of generator transfer switches up to 7500 watts, giving the generator the signal to turn on and provide your home with power. Offered for Residential Services only.
- + PLUS**
We also offer Residential & Multi-Family Services such as: Surge protectors, grounding & bonding upgrades, service mast repairs, new appliance circuits, GFCI installation, plug replacement, 2-prong upgrade to 3-prong, switches, outdoor heaters, outdoor living spaces, hot tubs, crawl space sump pump, kitchenettes and more.

A Job Done Right

Award-Winning Service Since 1957.

Homeowners throughout the Puget Sound area have come to know us for providing best-in-class service, transparent pricing, and exceptional communication. Our awards, certifications, and strong partnerships with the utility companies, like Puget Sound Energy, have given the Northwest community peace of mind when choosing a reliable home advocate.
