2020 PRODUCT GUIDE FOR PROFESSIONALS

MADE STRONG

Aluminum is a distinguishing element that enables us to offer the strength, beauty and design freedom for which E-Series products are known. Through decades of innovation, we have elevated the extruded aluminum-clad window and patio door category and perfected a made-to-order process that is unsurpassed.

STRENGTH

We harness the full strength of aluminum with heavy gauge, extruded aluminum-clad wood sash and frames. Our thick cladding offers greater structural capabilities than thinner, roll-form aluminum, while providing a superior exterior finish that resists the elements of inclement weather, abrasion and impact.*

DURABILITY

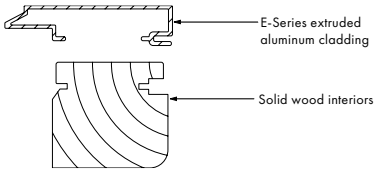
Our aluminum cladding withstands nature's toughest elements — the extrusions slide onto the wood and are secured independently, allowing both wood and aluminum to expand and contract naturally. Our products are engineered to open, close, support, swing or slide reliably day after day.*

BEAUTY

Aluminum offers a smooth finish and versatility in design that enables us to create windows and doors with distinctive character and unparalleled beauty. It provides an essential foundation for our quality, baked-on silicone polyester finish, and it enables us to offer a broad array of unique accessory metals to create or recreate the architectural style you need. And beauty doesn't stop on the outside — we give you the design freedom you need to create a look of distinction both inside and out.

VERSATILITY

Aluminum's strength and versatility allow us to offer beautiful made-to-order design solutions for practically any combination of shapes and styles you can imagine. We offer dozens of exterior accessory metals to match any architectural style, and our colorful 2-, 3- and 4-tone exteriors truly broaden your creative palette.



A solid wood core and extruded aluminum cladding give E-Series windows both strength and flexibility in many design applications.

E-Series casement window with Terratone exterior color.

ENGINEERED FOR PERFORMANCE & DURABILITY

ENERGY-SAVING GLASS FOR ANY CLIMATE

Andersen makes windows and patio doors with options that make them ENERGY STAR® v. 6.0 certified throughout the United States. Visit **andersenwindows.com/energystar** for more information and to verify that the product with your glass option is ENERGY STAR certified in your area.

ASK ABOUT ENERGY STAR

LOW-MAINTENANCE EXTERIORS

Baked-on silicone polyester enamel exteriors offer virtually maintenance-free performance and durability. They're warranted for 10 years against chalking and color change and for 20 years against cracking, checking, peeling, flaking, blistering and loss of adhesion.*

PROTECTION FOR COASTAL AREAS

E-Series windows and patio doors with Stormwatch® Protection meet building code requirements in many Gulf and Atlantic coast states. See your local building code official for specific requirements. Visit **andersenwindows.com/coastal** for more information.

StormWATCH® PROTECTION

BUILT FOR YEARS TO COME

Our renowned Owner-2-Owner® limited warranty is fully transferrable and not prorated, making it one of the best coverage plans available — which means it can add resale value for your customers. It's also supported by the industry's largest service network.*

OWNER2OWNER® LIMITED WARRANTY

*Visit andersenwindows.com/warranty for details.

CONTEMPORARY STYLE

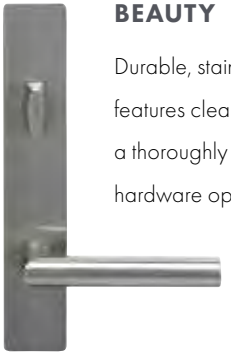
Modern home styles incorporate clean lines, simple forms and open floor plans. They often feature floor-to-ceiling windows or doors with narrow profiles to maximize light and view, have multiple units arranged in rectangular groupings and use dark colors or metal finishes. E-Series products are available in these options to let you create a contemporary style.

Interior of door shown with 3 11/16" contemporary panel profile.

CONTEMPORARY DESIGNS

Dark colors and narrow profile options on windows, patio doors and even grille options offer a truly contemporary style.

Contemporary grille profile in black with a black spacer bar.



BEAUTY

Durable, stainless steel FSB® hardware features clean lines in a satin finish for a thoroughly modern look. See FSB hardware options on page 29.

SLEEK INTERIORS

High-quality, factory-applied interior finishes offer convenience along with beauty. For a modern look, choose a black or anodized silver painted interior.

BRING YOUR VISION TO LIFE

Andersen has done extensive research into many architectural styles and how windows and patio doors play a critical role in achieving them. We've compiled it all into our Home Style Library. Whether you're looking for a modern home style or something more traditional, our library shows how easily you can achieve each style with our Andersen® products. To view our complete Home Style Library, visit **andersenwindows.com/stylelibrary**.

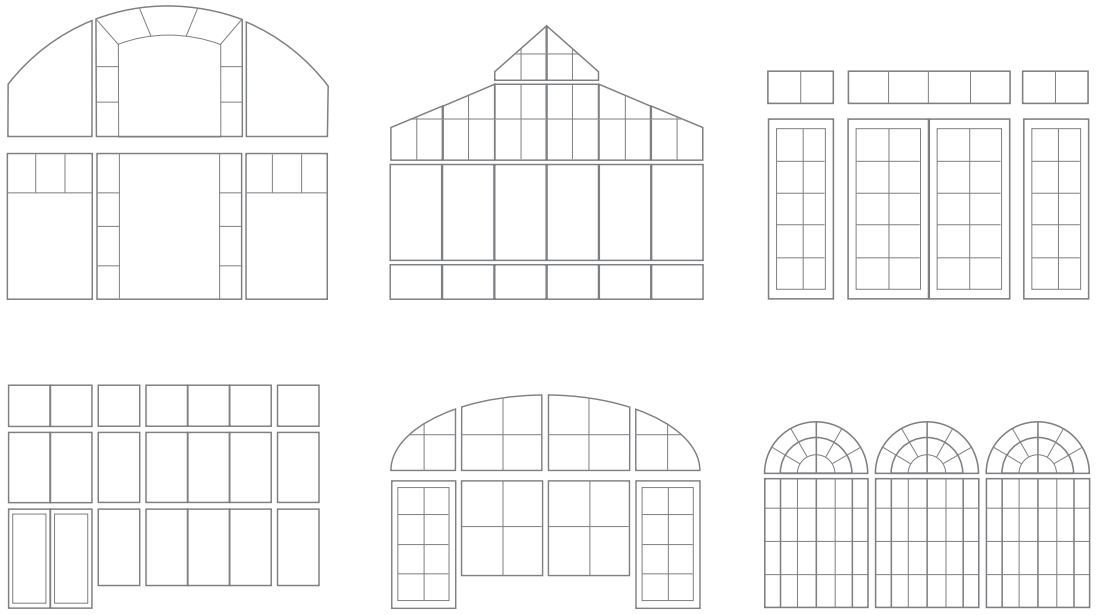
UNLIMITED COMBINATIONS

E-Series windows and patio doors are made to your exact design specifications. Because we make your window or door especially for you, and since our options are virtually limitless, you have the advantage of combining shapes, sizes and styles for new construction or remodeling applications.

BUILDING BLOCKS

Our complete window and door styles are your building blocks for making any architectural statement. We give you the products and the design freedom you need to create the perfect solution for your project whether residential or commercial, new construction or remodeling. Unique shapes in varying combinations create focal points that become defining architectural elements.



SIZING OPTIONS

We believe you shouldn't have to settle for "close enough." Our made-to-order process enables us to make your windows and doors to the specific size you need. So when you go from inspirational sketch to architectural drawing, know that we will fulfill your design needs. We provide a thorough range of sizes for most applications and offer custom sizing anytime you need it.

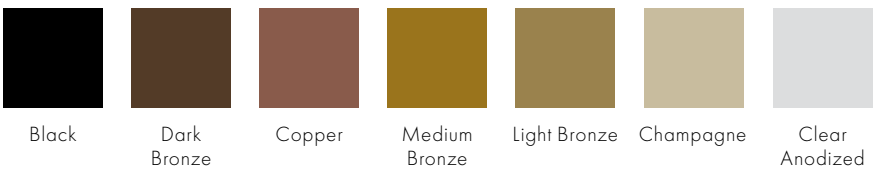
50 EXTERIOR COLORS

Our exclusive line of exterior colors offers a broad spectrum of quality, baked-on, silicone polyester enamel exteriors that meet AAMA 2604 specification. AAMA 2605 color compliance is also available.* Our limited warranty covers exteriors for 10 years against chalking and color change and 20 years against cracking, checking, peeling, flaking, blistering and loss of adhesion.**

EXTERIOR COLORS

7 ANODIZED FINISHES

Choose from a spectacular selection of anodized finishes. Anodizing is a process that penetrates the aluminum like a stain penetrates wood. The result is a rich, lustrous metallic appearance that cannot peel or flake and is not affected by sunlight.** This process produces a harder, more durable finish that makes this a perfect choice for high-traffic areas in commercial or residential buildings.



*AAMA 2605 finishes are available in any of our 50 colors or select a custom color of your choice.
**Visit andersenwindows.com/warranty for details.
Printing limitations prevent exact color and finish replication. See your Andersen supplier for actual color and finish samples.

CUSTOM COLORS

While our large selection of exterior colors covers a lot of ground, inspiration comes in infinite hues. Let us match a paint chip, a photograph, a favorite work of art to bring your dream color into the light of day.

2-, 3- AND 4-TONE EXTERIORS

With our 2-, 3- and 4-tone color combinations, the sky's the limit. Mix and match up to four of our 50 exterior colors on the frame, sash, exterior trim and grilles for a combination look that's all your own.

Country Blue and Stormy Blue

Sage, Moss and Canvas

Printing limitations prevent exact color duplication. See your Andersen supplier for actual color samples.

DISTINCTIVE WOOD SELECTIONS

Our distinctive woods add uncommon flair to any room. Each option has its own character, grain and staining capabilities, so you can select one that makes your windows stand out or one that blends seamlessly with your interior décor.

INTERIOR WOOD SPECIES

Pine | Mixed Grain Douglas Fir | Oak | Maple | Hickory | Mahogany* | Cherry | Walnut | Vertical Grain Douglas Fir | Alder

CUSTOM WOOD INTERIORS

If a unique wood species is required to complete your project, we will try to source any variety that meets our production standards and your needs.

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.
Wood species shown are unfinished.
Naturally occurring variations in grain, color and texture of wood make each window one of a kind.
We cannot guarantee consistency in wood grain and/or color within a particular species, product or project.

VARIETY OF INTERIOR FINISHES

Our high-quality, factory-applied stains offer you convenience along with beauty. Before staining, each wood component is treated with a preservative and insect repellent and dried thoroughly. We apply two coats of polyurethane for a long-lasting,* durable finish, and because every exposed edge is stained before the window is assembled, you get a complete, consistent finish. Choose from nine stain colors. If you prefer a painted interior, choose one of our painted or primed options.

STAINED INTERIOR OPTIONS

Clear Coat | Wheat | Autumn Oak | Golden Hickory | Honey | Cinnamon | Russet | Mocha | Espresso

All stained interior finish options are shown on pine.

PAINTED INTERIOR OPTIONS

White | Birch Bark | Primed (for paint) | Canvas | Sandtone | Terratone | Forest Green

Dark Bronze | Dove Gray | Prairie Grass | Red Rock | Cocoa Bean | Black | Anodized Silver

Painted interior options are available on pine.
Dark bronze and black also available on maple.
Anodized silver available on maple only.

CUSTOM STAINS, PAINTS & COLOR MATCHING

When only a specific tint will do, we will create one for you, matching existing woodwork, interior furnishings or other items for just the right finish to your design.

*Visit andersenwindows.com/warranty for details.
Please note that custom finishes and primed option require additional finishing. Some nail and staple holes may need to be filled prior to applying the final finish.
Printing limitations prevent exact finish and color replication. See your Andersen supplier for actual finish and color samples.

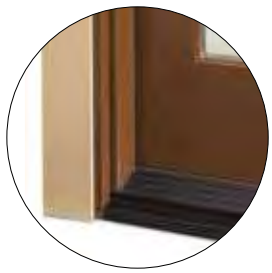
EXTERIOR & INTERIOR TRIM OPTIONS

Details take your project from ordinary to extraordinary. The perfect finishing touches make every window and patio door an irreplaceable part of any home or commercial building. We offer the trim and accessory metals that make the final details of your project easier to complete and more beautiful to look at.

EXTERIOR TRIM

Designed to add depth and traditional appeal, our exterior trim options extend outward from the window or door frame, casting a shadow line consistent with true historical applications. Choose from our extended selection of flat and profiled casings, brick mould casings and sill nose. Match or contrast the trim with your windows and doors in any of our 50 exterior colors, custom colors and anodized finishes.

3 ½" backband and bead casing and 1 ½" sill nose shown on casement



3 ½" flat casing shown on hinged inswing patio door

2" brick mould and 1 ½" sill nose shown on casement

3 ½" brick mould and 1 ½" deep sill nose shown on double-hung

INTERIOR TRIM COMPONENTS

Extension Jambs

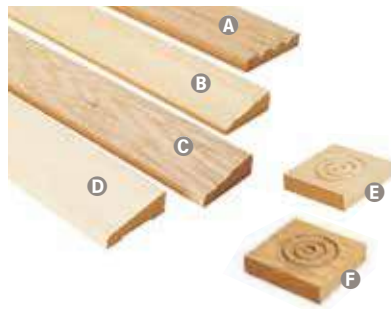
Pre-installed, dimensional extension jambs save time on jobsites and help enable a perfect installation. Available in all wood species, extension jambs can accommodate a wide variety of wall conditions.

Drywall Returns

We offer drywall returns in three depths: 11/16", 9/16" and 7/16"

Wood Casing

A subtle touch around the perfect window or door makes your view even more special. Choose from four different casings and add plinth blocks at the corners for just the right touch of detail.



- **A** ½" x 3 ¼" Fluted Casing
- **B** 11/16" x 2 ¼" Colonial Casing (WM366)
- **C** 11/16" x 2 ¼" Colonial Casing (WM356)
- **D** 11/16" x 2 ¼" Ranch Casing (WM324)
- **E** 2 ½" Plinth Block
- **F** 3 ½" Plinth Block

UNLIMITED VIEWS

Whether your design demands performance, clarity or architectural detail, we have the glass and divided light solutions to make your views spectacular. For performance needs in a variety of environments, we offer a multitude of glass options, including our High-Performance Low-E4® glass and our exclusive Stormwatch® impact-resistant product systems for severe weather conditions.*

And for visual impact, made-to-order decorative glass and grilles give you infinite possibilities, so your design will be as original as your inspiration.

*See your local code official for building code requirements in your area.

GLASS OPTIONS

We offer a multitude of glass options to meet all of your design needs. Whether you're in need of energy efficiency or resistance to harsh weather conditions, we provide the solutions for you.

Low-E4® Glass, our standard glass option, provides excellent insulation from heat and cold. Compared to ordinary dual-pane glass, High-Performance Low-E4 glass is up to 44% more energy efficient in winter and up to 57% more efficient in summer.* Or consider Sun glass with its soft, glare-controlling tint.

Low-E4 Passive Sun® Glass is a great solution for colder climate zones where higher heat gain is desired. It allows a higher amount of the sun's heat to pass into the home, making it an ideal solution for passive solar applications.

Low-E4 SmartSun™ Glass combines performance with clarity — letting more light in and keeping more heat out. It blocks 95% of the sun's damaging ultraviolet rays. Enjoy the performance benefits of tinted glass without the loss of visibility.

Triple-Pane Glass with three panes of glass, combined with Low-E coatings, can provide enhanced energy performance. Adding triple-pane glass can produce a lower U-Factor than using regular dual-pane glass.

HeatLock® Technology can increase the energy efficiency of any E-Series window or door with Low-E4 or SmartSun glass. Applied to the room-side glass surface, it reflects heat back into the home and improves U-Factors, which can help the window or door meet ENERGY STAR® requirements.

Laminated Glass offers sound protection, forced entry and impact resistance. It reduces unwanted outside noise, making it ideal for locations like airports and high-volume traffic areas.

Decorative & Specialty Glass options are also available. See our decorative glass collection at **andersenwindows.com/artglass** or combine beveled, frosted, grooved, colored or textured glass with three caming options to create your own design. Specialty glass includes tinted glass, spandrel glass and Mapes panels as well as rain, reeded and obscure glass options.

A removable translucent film shields glass from damage and simplifies finishing and cleaning on the jobsite.

	ENERGY		LIGHT

Center of glass performance only. Ratings based on glass options available as of January 2019. Visit www.andersenwindows.com/energystar for ENERGY STAR® map and NFRC total unit performance data.

*Winter and summer values are based on comparison of E-Series 3866 double-hung window U-Factor to the U-Factor for clear dual-pane glass non-metal frame default values from the 2006, 2009, 2012, 2015 and 2018 International Energy Conservation Code "Glazed Fenestration" Default Tables. See your Andersen supplier for actual glass samples.

"ENERGY STAR" is a registered trademark of the U.S. Environmental Protection Agency.

STORMWATCH® PROTECTION

Designed for use in coastal areas, these systems combine monolithic or insulated laminated glass with structural enhancements to meet or exceed the stringent code requirements of ASTM and TAS testing protocols.* You get the performance you need with the design options you want.

PRODUCT AVAILABILITY

Choose from a variety of coastal windows including casement, awning, double-hung** and fixed windows. Impact-resistant double-hung windows utilize two or more snuggers applied to the sill, creating a structural connection between the lower sash and frame. Simply close and lock the window and it's ready to withstand even the toughest weather conditions.*

We also offer a variety of coastal patio doors including inswing patio doors (impact-resistant insulated glass options only), outswing patio doors and French gliding patio doors. Surface bolts are required for impact certification of double doors.

Plus, you can select any of our 50 exterior colors, anodized finishes or custom colors. Choose from a variety of wood species, interior finishes, hardware, grille options, VeriLock® sensors and more. The only options not available on coastal products are decorative glass, blinds and shades.

PERFORMANCE & DURABILITY

Impact-resistant glass provides windborne debris protection,* reduced sound transmission and burglar resistance

Designed to satisfy:

- AAMA/WDMA/CSA 101/I.S.2/A440-08 & -11
- Large missile impact test ASTM E1886/E1996
- TAS 201, 202, 203 (excluding inswing patio doors)
- Peace of mind with 24/7 protection

SCREEN OUT THE INSECTS, NOT THE VIEW

E-Series insect screens let the beauty of the outdoors in, while keeping even small insects out. Choose from a wide selection of insect screen styles, including options that blend seamlessly with your window.

Conventional Insect Screen

TruScene Insect Screen

Retractable Insect Screen

TRUSCENE® INSECT SCREENS*

TruScene insect screens for windows are made with a micro-fine stainless steel mesh that offers 50% more clarity than our conventional aluminum mesh insect screens. TruScene insect screens let in more fresh air and sunlight and keep small insects out.

WOOD VENEER INSECT SCREENS

For a clean appearance, E-Series interior window insect screens can feature a wood veneer to blend into your window.

RETRACTABLE INSECT SCREEN FOR PATIO DOORS**

This insect screen is built with an innovative color-matched aluminum housing that hides the insect screen when not in use. It's there when you need it and gone when you don't.

RETRACTABLE INSECT SCREENS FOR WINDOWS AND PATIO DOORS

Retractable insect screens for casement and awning windows offer a sleek addition to any home. In place, the insect screen keeps insects out. When retracted, it provides a beautiful clear view.

For patio doors,** retractable insect screens are built with an innovative color-matched housing that hides the insect screen when not in use. It's there when you need it and gone when you don't.

HINGED INSECT SCREEN

Available for hinged inswing patio doors, this solid insect screen offers a full-door view and features a lockable latch and automatic closer.

TOP-HUNG GLIDING INSECT SCREEN FOR PATIO DOORS

Open your room to the outdoors with the touch of a finger. Our top-hung gliding insect screen provides smooth and reliable operation, season after season†

*TruScene wood-veneered insect screens utilize a different frame profile than other E-Series wood-veneered insect screens.
**Retractable insect screens are available on inswing, outswing and gliding patio doors. See your Andersen supplier for details.
†Visit andersenwindows.com/warranty for details.
All comparisons are made to conventional E-Series aluminum insect screens.

BETWEEN-THE-GLASS BLINDS & SHADES

What could be more convenient than blinds or shades between the panes of glass? Minimal cleaning and no worry about damage. It's simply a fitting way to put privacy at your fingertips. E-Series blinds and shades offer the ultimate in practicality for both residential and commercial applications.

BLINDS-BETWEEN-THE-GLASS

E-Series blinds-between-the-glass can be installed in many of our patio doors and rectangular picture windows. Placed between the two panes of glass away from dust, dirt and damage, you get the benefit of energy efficiency and privacy control and convenience of blinds.

Tan Almond White

Tilt, raise and lower with one control cord.*

Blinds-Between-the-Glass

SYSTEM 3 BLINDS & SHADES

Add privacy and even greater energy efficiency with this low-maintenance blind or shade solution. Applied to the interior of the sash, the System 3 design creates a triple-glazed window for incredible energy efficiency. Our ¾" blinds and pleated shades are available for casement, awning and picture windows, plus hinged patio doors, and are mounted to an extruded aluminum storm panel and applied to the interior of the sash. The removable storm panel is available in tan, gold, white or wood veneer.

THE SMARTEST TECHNOLOGY FOR THE SMARTEST HOMES

Andersen® E-Series windows and doors can now be part of today's connected home. Monitor the status of your windows and patio doors anytime and from anywhere with our sensor options.* Plus, our new Yale® Assure Lock,® shown on page 29, lets you remotely lock or unlock your hinged patio doors.* Learn more about the convenience and peace of mind Andersen smart home products offer at **andersenwindows.com/connect**.

Double-Hung Sash Lock VeriLock Security Sensor

Open/Closed Sensor

VERILOCK® SECURITY SENSORS

With the most advanced technology in the industry, VeriLock security sensors not only indicate whether windows and patio doors are open or closed, they even indicate if they are locked or unlocked.* No other sensor can do that.

Maintains Warranty – No drilling required which can void warranties.

Helps Maximize Energy Efficiency – Windows that are closed but unlocked lose air at a rate up to 3X that of a closed and locked window.** VeriLock sensors tell you which windows and patio doors are open or unlocked* so you can help manage air loss.

Preserves Beauty – Available in a variety of colors to complement many Andersen hardware or interior finishes.

White Gold Dust Gray Stone Black

WIRELESS OPEN/CLOSED SENSORS

These wireless sensors provide the peace of mind of knowing whether your windows and patio doors are open

Easy Installation – No tools are required to install our sensors. Simply place the sensor on a window or patio door and line up the magnet with the sensor until the LED glows blue.†

Maintains Warranty – No drilling required which can void warranties.

Compact Design – Sleek, compact design in a variety of colors to blend in with the window or patio door.

White Canvas Sandtone Dark Bronze

*When properly configured and maintained with a professionally installed security system and/or self-monitoring system compatible with Honeywell® 5800 controls. See your Andersen supplier for more information.

**Based on testing of thirty-two (32) A-Series double-hung windows. Air loss through unlocked windows will vary based on window type and age, pressure differential, temperatures inside and outside the home, altitude and application.

†See product installation for details.

Printing limitations prevent exact color duplication. See your Andersen supplier for actual color samples.

PATIO DOOR HARDWARE

E-Series patio door hardware is available in a variety of different designs to match virtually any style.
