

# Phoenix LIGHT DUTY

**Advanced Heating** & Hot Water Systems

Highly Efficient Stainless Steel Gas-Fired Water Heater

## 76,000 Btuh 50, 60 & 80 Nominal **Gallon Tanks**

**Up to 97% Thermal Efficiency** Up to .90 UEF **Modulating Combustion System** 316L Stainless Steel Tank

### **Multiple Venting Options**

-2" PVC, CPVC or ULC S636 pipe -Combined vent length of 150 ft

# Phoenix LD A CLOSER LOOK

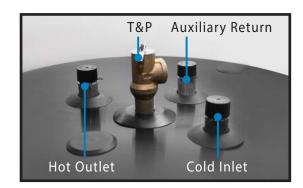

#### **NO Anode Rods Needed!**

All coated tanks require anodes to delay the inevitable corrosion and tank failure. The Phoenix Light Duty stainless steel tank will outlast any coated steel tank in the market!

# High Efficiency Stainless Steel Gas-Fired Water Heater

Heat Exchanger Cupronickel spiral design that expands and contracts rapidly with the change in

with the change in temperature resisting scale build-up.

- -Durable Construction
- -High Performance
- -Excellent Heat Transfer Capabilities

## CONTROL & DISPLAY

## **Functions**

- 1. Menu Navigation Down
- 2. Menu Navigation Up
- 3. Decreases the DHW Setpoint
- 4. Increases the DHW Setpoint
- 5. ECO Mode: provides real energy SAVINGS, WHEN LESS HOT WATER IS NEEDED
- 6. Reset
- 7. Off/DHW Mode Enable

## **FEATURES**

#### **Modulating Combustion System**

- -3:1 turndown ratio 25,000 to 76,000 Btuh
- -Ultra Low NOx compliant

#### **Superior 316L Stainless Steel Tank Construction**

- -3 tank sizes: 50, 60, & 80 nominal gallons
- -Laser welded precision, lightweight tank
- No anode rods needed

### **Highly Efficient Combustion Heat Exchanger**

-The Phoenix Light Duty uses the latest, patented technology and is covered by U.S. Patent No. 10,024,57, it's cupronickel heat exchanger design boasts excellent heat transfer properties and resists corrosion

-High grade stainless steel burner

### Venting

- -2" PVC, CPVC or ULC S636 pipe
- -Combined vent length of 150 feet
- -Two pipe / single pipe, balanced or unbalanced venting system

#### **Advanced Electronic Control**

-Easy to read LCD (icon and text) display

#### **Highly Efficient Operation**

- -Up to 97% Thermal Efficiency
- -Up to .90 Uniform Energy Factor

#### **Ease of Installation**

BALL VALVE

- -Top ports on inlet and outlet
- -Top connect auxiliary port for recirculation line or AIR HANDLER piping, increases overall efficiency

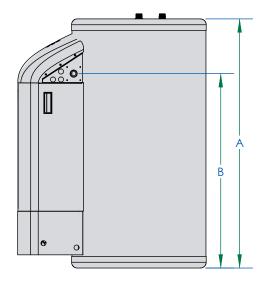

DRAIN VALVE

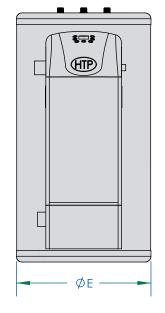

## BACKFLOW PREVENTER AUXILARY HOT OUTLET COLD INLET EXPANSION TANK **Phoenix LD** Installation CIRCULATOR PUMP with an Air Handler HIE

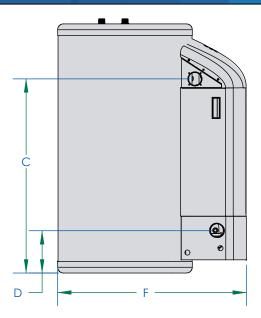

### The Phoenix LD performs better than tankless

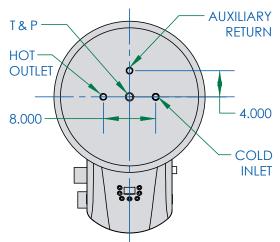

- Avoid inconsistent water fluctuations
- No minimum flow rates needed to provide hot water
- -Deliver hot water to multiple outlets and large volume showers faster

# Phoenix LD Specifications

#### STANDARD FEATURES

- Up to 97% TE and up to .90 UEF
- Modulating Burners with Up to 3:1 Turndown Ratio
- Vents in PVC, CPVC, Stainless Steel, ULC S636
- Spark ignition with flame monitoring
- Flame stabilization monitoring
- Integrated Control System
- Pressure relief pre-piped
- Limited Warranty:

**Residential:** 10 year if registered online & 7 year if not registered

**Commercial:** 3 year (upgradeable to 5 year with additional charge)

#### WHAT'S IN THE BOX

- Intake PVC Tee w/ Screens
- Exhaust PVC Coupling w/ Screens
- Installation Manual
- Temperature & Pressure Relief Valve
- Warranty

#### OPTIONAL EQUIPMENT

- Outdoor Sensor
- 2" or 3" PVC Concentric Vent Kit
- 2" or 3" Stainless Steel Outside Termination Vent Kit
- 3" Polypro Vent Kit
